Hi Brian,

I did a worksheet showing remaining restricted net assets as of today (unaudited and did not include the direct mail allocation since I have not had it audited as yet).

It shows that we have \$8.6 million net assets restricted for programs this includes the \$4million for the hospital and \$250,000 for the database and the pledged \$1million to be released over time.

Let me know if you need additional information.

I can send this to Karen or just send her the total of \$8,618,777

Thanks Hana

RESTORING 20/20 VISION
TO 20 MILLION BLIND
CHILDREN AND ADULTS

Dear Sample A. Sample,

Take a look at the photo. This is Rupali. She's beautiful, isn't she?

You'd never know that this smiling, precious 7-year-old girl was born blind — and, not too long ago, she had no friends and had never gone to school. *That's because she's not blind now.*

Thanks to the kindness and compassion of people like you who opened their hearts — and their wallets — she underwent a 15-minute surgery that restored her sight ... and her chances for a healthy, happy life.

As the co-founder and former president of Smile Train, I've traveled to the poorest countries in the world. I've seen a lot of needless suffering and a lot of miracles.

But I've never seen anything as powerful as watching a child who was blind open up their eyes and see.

There are no words to describe it, and I wish you could be there to witness the overwhelming joy of a child receiving this most precious gift.

That's why it breaks my heart to know that countless children like Rupali will spend their entire lives never seeing their parents' faces, never being able to attend school or make new friends ... simply because they are poor and cannot afford surgery.

Sample A. Sample, the 15-minute surgery that can cure blindness is a medical miracle to be sure. And even though it only costs \$300, families in developing countries could never afford it — not in a hundred years.

So we started 20/20/20 to provide these life-changing "miracle" surgeries at no cost.

20/20/20 receives no big grants from the government, foundations, or corporations. *The only way we're able to do this is through the incredible generosity of caring people who support our mission — people like you.*

I realize \$300 is a large gift to make, so I would be eternally grateful for whatever you can give — hopefully \$25, \$50, or even \$75.

I promise you it will make a life-changing difference.

Because Rupali can see now, she can go to school, make friends, and enjoy

(over, please)

a much, much brighter future. An adult who receives an eyesight-restoring surgery is able to work and take care of their families. Sight is everything when you have next to nothing and there are no resources available.

That's why we're pouring our hearts and souls into helping blind children and adults in need.

At about 2%, **20/20/20** has one of the lowest administrative costs of any major charity. In a short time, we've been able to restore the eyesight of 101,710 blind children and adults.

But, for every child like Rupali, there are millions more just like her — and moms and dads and grandparents too — who will remain blind ... unless someone helps them.

I really hope you'll be that someone.

Please return a gift today and help a child or adult see tomorrow.

I promise, you will not regret it.

From the bottom of my heart, thank you.

Sincerely,

P.S. Want to see what a difference your gift makes? Visit www.20x20x20.org and watch as two sisters see their mom and the world for the first time.

You can help make these miracles possible. No matter how much you can send, you will touch and change someone's life. So please return your gift in the enclosed envelope, or you can make your gift online in a matter of seconds. As a thank-you for your gift, we'll send you another photo of child who can now see thanks to the generosity of people like you.

Dear Brian,

I wholeheartedly believe in what you are doing and want to help 20/20/20 give the gift of sight to children and adults who only remain blind simply because they are poor.

I've enclosed a generous gift in the amount of:

- ☐ \$300, which can provide one full eye surgery
- ☐ \$150, which can provide half a surgery
- ☐ \$75, which can provide anesthesia for the surgery
- ☐ \$50, which can provide surgical supplies for two eye surgeries
- ☐ \$25, which can provide surgical supplies for one eye surgery
- ☐ \$_____ Any amount will help!

- ☐ I would like to pay for the \$300 surgery over time.

Please charge my credit card \$25 a month for the next 12 months.

Prevent a Lifetime of Suffering with a Small Monthly Gift

Half of all the blind children and adults in the world could see tomorrow thanks to a miracle surgery that costs only \$300. But because they are so poor, 99% of them will never receive surgery unless someone helps them. YOU could be that someone.

20/20/20 provides a simple, safe surgery that takes as little as 15 minutes and restores the eyesight of a blind child or adult. By making a monthly gift of just \$25 (around \$0.80 per day), you can help provide the funding for at least one of these miracle surgeries to prevent a lifetime of suffering.

Your monthly commitment will be automatically charged to your debit or credit card, and you'll never have to mail a check, find an envelope, or buy a stamp to help a blind child or adult. Simply fill in the credit card information on the left and become a monthly supporter today!

Rupali is a seven-year-old girl who was born blind in a very poor village in Eastern India. None of the other children wanted to play with her. And she couldn't go to school. Then her parents took her to a hospital where she received eye surgery funded by 20/20/20.

Rupali can now go to school, she has many new friends, and she's filled with joy because she can now see her way to a brighter future. Her father, who is a laborer and could never in a hundred years have afforded the \$300 surgery, is very grateful that his daughter's blindness was cured by generous friends from halfway around the world.

Information About Blindness

Providing valuable public information is one of our most important programs and an important part of our mission.

Vision Impairment and Blindness

Vision impairment, or low vision, means that even with eyeglasses, contact lenses, medicine, or surgery, you don't see well. Vision impairment can range from mild to severe. The leading causes of vision impairment and blindness in the United States are age-related eye diseases: macular degeneration, cataracts, and glaucoma. Other eye disorders, eye injuries, and birth defects can also cause vision loss. A loss of vision means that you may have to reorganize your life and learn new ways of doing things. If you have some vision, visual aids such as special glasses and large-print books can make life easier. There are also devices to help those with no vision, like text-reading software and braille books. Sometimes, vision loss is preventable. Regular comprehensive eye exams and prompt treatment are critical.

Some Causes of Blindness

Macular Degeneration

Macular degeneration, or age-related macular degeneration (AMD), is a leading cause of vision loss in Americans 50 and older. It is a disease that destroys your sharp, central vision. You need central vision to see objects clearly and to do tasks such as reading and driving. AMD affects the macula, the part of the eye that allows you to see fine detail. It does not hurt, but it causes cells in the macula to die. There are two

types: wet and dry. Wet AMD happens when abnormal blood vessels grow under the macula. These new blood vessels often leak blood and fluid. Wet AMD damages the macula quickly. Blurred vision is a common early symptom. Dry AMD happens when the light-sensitive cells in the macula slowly break down. You gradually lose your central vision. A common early symptom is that straight lines appear crooked. Regular comprehensive eye exams can detect macular degeneration before the disease causes vision loss. Treatment can slow vision loss. It does not restore vision.

Glaucoma
Glaucoma is a group of diseases that can damage the eye's optic nerve. It is a leading cause of blindness in the United States. It usually happens when the fluid pressure inside the eyes slowly rises, damaging the optic nerve. Often, there are no symptoms at first. Without treatment, people with glaucoma will slowly lose their peripheral, or side vision. They seem to be looking through a tunnel. Over time, straight-ahead vision may decrease until no vision remains. A comprehensive eye exam can tell you if you have glaucoma. People at risk should get eye exams at least every two years. They include African-Americans over age 40, people over age 60, especially Mexican-Americans, and people with a family history of glaucoma. There is no cure, but glaucoma can usually be controlled. Early treatment can help protect your eyes against vision loss. Treatments usually include prescription eyedrops and/or surgery.

Cataracts
A cataract is a clouding of the eye's lens and is the leading cause of blindness worldwide, and the leading cause of vision loss in the United States. Cataracts can occur at any age due to a variety of causes, and can be present at birth. Although treatment for the removal of cataract is widely available, access barriers, such as insurance coverage, financial costs, patient choice, or lack of awareness, prevent many people from receiving the proper treatment. An estimated 26.5 million (17.2% of Americans 40 years and older) have cataract in one or both eyes, and 6.1 million (3.1%) have had their lens removed operatively. The total number of people who have cataracts is estimated to increase to 30.1 million by 2020. Common symptoms are blurry vision, colors that seem faded, glare, not being able to see well at night, double vision, frequent prescription changes in your eyewear. Cataracts usually develop slowly. New glasses, brighter lighting, anti-glare sunglasses, or magnifying lenses can help at first. Surgery is also an option. It involves removing the cloudy lens and

replacing it with an artificial lens. Wearing sunglasses and a hat with a brim to block ultraviolet sunlight may help to delay cataracts.

Congenital Cataracts

A congenital cataract is a clouding of the lens of the eye that is present at birth. The lens of the eye is normally clear. It focuses light that comes into the eye onto the retina. In most patients, no cause can be found.

Congenital cataracts usually look different than other forms of cataract. Symptoms include gray or white cloudiness of the pupil (which is normally black); infant doesn't seem to be able to see (if cataracts are in both eyes); "red eye" glow of the pupil is missing in photos, or is different between the two eyes; and unusual rapid eye movements (nystagmus). To diagnose congenital cataract, the infant should have a complete eye examination by an ophthalmologist. The infant may also need to be examined by a pediatrician who is experienced in treating inherited disorders. Blood tests or x-rays may also be needed. If congenital cataracts are mild and do not affect vision, they may not need to be treated, especially if they are in both eyes.

Moderate to severe cataracts that affect vision, or a cataract that is in only one eye, will need to be treated with cataract removal surgery. Removing a congenital cataract is usually a safe, effective procedure. Call for an urgent appointment with your baby's health care provider if you notice that the pupil of one or both eyes appears white or cloudy, or if the child seems to have trouble seeing.

Amblyopia

Amblyopia, or "lazy eye," is the loss of one eye's ability to see details. It is the most common cause of vision problems in children. Amblyopia occurs when the nerve pathway from one eye to the brain does not develop during childhood. This occurs because the abnormal eye sends a blurred image or the wrong image to the brain. This confuses the brain, and the brain may learn to ignore the image from the weaker eye. Strabismus is the most common cause of amblyopia. There is often a family history of this condition. The term "lazy eye" refers to amblyopia, which often occurs along with strabismus. However, amblyopia can occur without strabismus and people can have strabismus without amblyopia. Amblyopia is usually easily diagnosed with a complete

examination of the eyes. Special tests are usually not needed. Children who get treated before age 5 will usually recover almost completely normal vision, although they may continue to have problems with depth perception. Delaying treatment can result in permanent vision problems. After age 10, only a partial recovery of vision can be expected.

Eye Injury

According to the American Academy of Ophthalmology, an estimated 50 percent of eye injuries are preventable with the use of proper safety eyewear. Even a minor injury to the cornea — like that from a small particle of dust or debris — can be painful and become a life-long issue, as like the extra precaution and always protect the eyes. If the eye is injured, seek emergency medical help immediately.

Dangers at Home

When we think of eye protection, we tend to think of people wearing hard hats and lab coats. We often forget that, even at home, we might find ourselves dealing with similar threats to our eyes. Dangerous chemicals that could burn or splash the eyes aren't restricted to chemical laboratories. They're also in our garages and under our kitchen sinks. Debris and other airborne irritants are present at home, too, whether we're using a home construction project or working in the yard. The debris from a lawnmower or "weed whacker," for example, can be traveling at high speeds and provide no time to react. Some sports also put the eyes at risk of injury from foreign objects moving at high speeds.

Effective Eyewear

The best way to prevent injury to the eye is to always wear the appropriate eye protection. The Bureau of Labor Statistics reports that approximately three out of every five workers injured were either not wearing eye protection at the time of the accident or were wearing the wrong kind of eye protection for the job. To be effective, eyewear must fit properly and be effectively designed to protect the eyes based on the activity being performed. The Occupational Safety Health Administration (OSHA) has standards that require employers to provide their workers with the appropriate eye protection.

When to Wear Protective Eyewear

According to these standards, you for anyone who is watching you work should always wear properly fitted eye protective gear, such as safety glasses with side protection/shields, when doing work that may produce

particles, shivers, or dust from materials like wood, metal, plastic, cement, and drywall; hammering, sanding, grinding, or doing masonry work; working with power tools; working with chemicals, including common household chemicals like ammonia, oven cleaners, and bleach; using a lawnmower, riding mower, or other motorized gardening devices, like string trimmers; working with wet or powdered cement; welding (which requires extra protection like a welding mask or helmet from sparks and UV radiation); "jumping" the battery of a motor vehicle; being a bystander in any of the above.

Sports

It's also recommended that you protect your eyes from injury when participating in certain sports, including indoor racket sports, paintball, baseball, basketball, hockey, cycling, and riding or being a passenger on a motorcycle.

Eye Health Tips

Simple Tips for Healthy Eyes

Your eyes are an important part of your health. There are many things you can do to keep them healthy and make sure you are seeing your best. Follow these simple steps for maintaining healthy eyes well into your golden years.

Have a comprehensive dilated eye exam. You might think your vision is fine or that your eyes are healthy, but visiting your eye care professional for a comprehensive dilated eye exam is the only way to really be sure. When it comes to common vision problems, some people don't realize they could see better with glasses or contact lenses. In addition, many

common eye diseases, such as glaucoma, diabetic eye disease, and age-related macular degeneration often have no warning signs. A dilated eye exam is the only way to detect these diseases in their early stages. During a comprehensive dilated eye exam, your eye care professional places drops in your eyes to dilate, or widen, the pupil to allow more light to enter the eye the same way an open door lets more light into a dark room. This enables your eye care professional to get a good look at the back of the eyes and examine them for any signs of damage or disease.

Your eye care professional is the only one who can determine if your eyes are healthy and if you're seeing your best.

Know your family's eye health history. Talk to your family members about their eye health history. It's important to know if anyone has been affected with a disease or condition that many are hereditary. This will help to determine if you are at higher risk for developing an eye disease or condition.

Eat right to protect your sight. You've heard carrots are good for your eyes. But eating a diet rich in fruits and vegetables, particularly dark leafy greens, such as spinach, kale, or collard greens, is important for keeping your eyes healthy, too. Research has also shown there are eye health benefits from eating fish high in omega-3 fatty acids, such as salmon, tuna, and halibut.

Maintain a healthy weight. Being overweight is a disease because your risk of developing diabetes and other systemic conditions, which can lead to vision loss, such as diabetic eye disease or glaucoma. If you are having trouble maintaining a healthy weight, talk to your doctor.

Wear protective eyewear. Wear protective eyewear when playing sports or doing activities around the home. Protective eyewear includes safety glasses and goggles, safety shields, and eye guards specially designed to provide the correct protection for a certain activity. Most protective eyewear lenses are made of polycarbonate, which is 10 times stronger than other plastics. Many eye care providers sell protective eyewear, as do some sporting goods stores.

Quit smoking or never start. Smoking is as bad for your eyes as it is for the rest of your body. Research has linked smoking to an increased risk of developing age-related macular degeneration, cataract, and optic nerve damage, all of which can lead to blindness.

Don't and wear your shades. Sunglasses are a great fashion accessory, but their most important job is to protect your eyes from the sun's ultraviolet rays. When purchasing sunglasses, look for ones that block out 99 to 100 percent of both UV-A and UV-B radiation.

Give your eyes a rest. If you spend a lot of time at the computer or working on any one thing, you sometimes forget to blink and your eyes can get fatigued. Try the 20-20-20 rule: Every 20 minutes, look away about 20 feet in front of you for 20 seconds. This can help reduce eyestrain.

Practice workplace eye safety. Employers are required to provide a safe work environment. When protective eyewear is required as a part of your job, make a habit of wearing the appropriate type at all times and encourage your coworkers to do the same.

Information was derived from the U.S. Government National Institute of Health, the National Eye Institute and the Centers for Disease Control and Prevention.

Miracle surgeries for children.

July 1, 2015

Dear Sir or Madam,

In my capacity as Chief Financial Officer at WonderWork, I would like to request your help with our financial reporting.

As you know, WonderWork provides support for a portion of the actual cost for surgical treatment at your center/organization.

We wish to show our supporters the overall cost needed to provide these life-changing surgeries. Please provide us with your estimated total cost to perform WonderWork sponsored surgeries. Consider expenses such as:

- Overhead for medical/surgical staff and facilities
- Medical/surgical supplies
- Medications
- Outreach activities

Providing us with actual surgical costs is critical to maintaining our current donor base and attracting new donors so that WonderWork can continue supporting your vital work.

If you have any questions or concerns, please do not hesitate to contact me at hana@wonderwork.org.

We greatly appreciate your help and admire the meaningful work being done by your center/organization. Thank you for your assistance in this matter.

Best Regards,

A handwritten signature in black ink, appearing to read "Hana Fuchs".

Final Grant Report for the

Overview: In February 2014, you honored us with a very generous pledge of \$40,000 to provide 1,000 eye surgeries for blind children and adults in an extremely rural and poor area in Southern India. We distributed this grant to our partner, [REDACTED] who was able to put this money to use immediately.

Below is some information about our partner hospital, [REDACTED] and the surgeries they recently performed. We have also attached the surgical records [REDACTED] provided to us of all the 1,000 patients that were helped as a result of your generous grant:

[REDACTED]
[REDACTED] has been operating for 25 years. They have a network of 9 hospitals throughout India that provide high quality eye surgery for the rural and urban poor. Their outreach program is one of India's largest with screening camps held on weekends. Since 1990, not a single week has gone by without camps being conducted. The highly experienced and efficient surgical staff at [REDACTED] approximately 140,000 patients every year.

Grant Awarded - \$40,000

Surgeries Performed – 1,000

- 500 adult surgeries provided in Guntur, Andhra Pradesh
- 490 adult surgeries and 10 pediatric surgeries provided in Bangalore, Karnataka

A story of one of the youngest patients helped:

Name: [REDACTED]

Age: 3 years old

Gender: Male

Village: [REDACTED]

[REDACTED] was just 2 years old when his parents noticed he was completely blind. As poor farmers living in a remote village in Bangalore, they knew they couldn't afford care for [REDACTED]. Fortunately, they heard about [REDACTED] free eye camp sponsored by WonderWork, and brought him in as soon as they could. Little [REDACTED] underwent a 15-minute surgery that helped restore his sight, letting him see the world – and most important, his mom and dad - for the first time in his life.

Dear [REDACTED],

About a year ago, we sent you a grant proposal asking you to help us provide surgery for 1,000 children and adults.

You said, "YES!"

With your support for that grant, we were able to provide surgery and restore the eyesight of 1,000 blind children and adults who no one else would help. Most of them had been waiting many years.

I've put together a WonderWork Final Grant Report to show you the impact your support has had.

I hope you are as proud of it as we are.

Thanks to you, and other generous donors like you, this year we helped provide 67,000+ eyesight restoring surgeries for children and adults who would otherwise never have received them. Just imagine Metlife Stadium filled with smiling children and adults. That's a lot of miracles...and a lot of smiles!

But our work is far from over.

Our donations are down while the number of blind children and adults that need our help keeps rising every day. Their only hope is if someone helps them. This grant is your chance to be that someone. Again.

Will you please consider helping us with another grant of \$25,000?

100% of your donation will go towards our surgery program, as one of our Founding Donors is paying for all our admin and fundraising costs.

You'll be giving these blind children and adults the eyesight-restoring surgery they need. And a second chance at life they never thought they'd get.

Thanks for your consideration,

Brian Mullaney

PERSONAL AND CONFIDENTIAL

NOVEMBER 10, 2016

WON-EX 012287

Congratulations,

Thanks to you, **1,000** blind children and adults have had their eyesight restored!

We provide eyesight-restoring surgeries in **21** of the poorest countries in the world.

100% of your donation was used for our surgery program. A founding donor paid all the admin and fundraising expenses.

From all of our **9** employees and on behalf of all the children and adults we will help this year, thank you for your very generous grant and your continued help and support.

We appreciate it – AND WE NEED IT!

Thank you,

Brian Mullaney,
Co-founder

Your grant helped children and adults no one else would help.

Who.

Every day, in 21 of the world's poorest countries, WonderWork delivers 361 eyesight-restoring surgeries to children and adults who are blind.

We're helping children and adults no one else will – and giving them a second chance at life they never thought they'd get.

How.

Instead of sending doctors on volunteer, two-week missions once a year, WonderWork empowers local surgeons by providing them with crucial financial support.

Local surgical teams can provide ten times as many surgeries as a mission group can – for one-tenth the cost.

What.

The eye surgery we help provide is an inexpensive, quick, yet very, very safe procedure. It takes as little as 15 minutes and costs as little as \$25 to restore the eyesight of a blind child or adult.

It is one of the most low-cost, high-impact medical interventions in the world today.

When.

Our surgeons operate 24/7, 365 days a year helping the children and adults in their own communities.

We're helping very poor, but very proud communities become self-sufficient one surgery at a time.

Where.

Our patients live in some of the poorest countries in the world. Most are living on less than \$1.25 a day and have never seen a doctor before.

The vast majority of our patients could never afford the surgery they so desperately need and will never receive it unless someone helps them.

Why.

20 million children and adults remain blind solely because they are poor.

They will never receive surgery that can restore their eyesight unless someone helps them.

You can be that someone.

10 things you need to know about WonderWork.

1. This year, we'll restore the eyesight of 132,000+ blind children and adults.
2. The surgeries we provide are modern-day medical miracles.
3. We deliver eyesight-restoring surgeries in 21 of the poorest countries in the world.
4. We're one of the most cost-efficient charities in America.
5. 100% of all donations goes towards programs. (A Founding Donor pays all our other expenses.)
6. Our management team created Smile Train, the world's largest cleft charity.
7. We have 9 employees who collectively have 150+ years of experience.
8. Our average donation is around \$50.
9. We receive no money from the government or large grants from big foundations.
10. We rely entirely on generous individuals like YOU!

OVERVIEW: At the end of November 2013, the [REDACTED] honored us with a very generous grant of \$1,000,000. We distributed this grant immediately to WonderWork partner hospitals who had long waiting lists and the capacity to increase surgeries. Over these past 10 months, this grant was invaluable in helping us more than double the number of surgeries we had provided in the previous year. With your help, WonderWork has provided 33,199 life-changing surgeries for children and adults who were blind, severely burned or crippled with clubfoot.

30,431 blind children and adults received surgery that restored their eyesight.

1,870 children with clubfoot were cured.

898 severely burned children received reconstructive surgery.

- 4,571 cataract surgeries performed for the rural poor
- Patients identified through rural outreach screening camps
- Able to cover villages 150-300 km from base hospitals
- For every 5 patients screened, 2 need surgery

About [REDACTED]

[REDACTED] has been operating for 25 years. They have a network of 9 hospitals throughout India that provide high quality eye surgery for the rural and urban poor. Their outreach program is one of India's largest; screening camps are held on weekends. Since 1990, not a single week has gone by without camps being conducted. The highly experienced and efficient surgical staff [REDACTED] treats approximately 140,000 patients every year.

Patient: [REDACTED]
Age: 45 years
Gender: Female
Village: [REDACTED]
Diagnosis: Cataracts

Story: [REDACTED] is a housewife with two children. Her husband is a poor farmer and can barely feed his family. She began to go blind a few years ago. She mentioned this to her husband but they could not afford to see a doctor. Through a family friend, they heard about a special eye camp nearby at [REDACTED]. [REDACTED] husband took her to the camp where she was diagnosed with cataracts. She was then brought to the base hospital, where the surgery was performed immediately and free of cost. [REDACTED] was very excited and grateful to have her vision restored.

██████████ is a service oriented mission hospital that has served the poorest patients in West Bengal India since the early 1990's. ██████████

██████████ (pictured right) and his talented team treat approximately 18,000 patients every year. ██████████ is one of the few hospitals in the region specializing in pediatric ophthalmology. They also run an Ophthalmic Training Centre, which trains more than 100 students each year.

Patient: ██████████
Age: 2 years
Gender: Male
Village: ██████████
Diagnosis: Congenital Cataract

██████████'s Story: ██████████'s family realized he was blind when he was only 4 months old. They are very poor farmers that live in a thatched mud house in a remote village of Medinipur District in West Bengal. Until ██████████ conducted an eye camp recently, the family did not know ██████████'s condition could be treated. ██████████ was able to undergo a successful surgery at no cost to the family. Now he has 20/20 vision and can go to school.

Location: Bangladesh

WON-EX 011857

The [REDACTED] Initial Grant Report

This grant report summarizes how we deployed this \$500,000 unrestricted grant.

WHO: This grant will provide free surgery for 10,415 poor children and adults in developing countries who would otherwise never receive it.

WHERE: This grant will pay for surgeries in 3 of the world's poorest countries: Bangladesh, Nepal and India.

WHEN: This grant was received December 31, 2013. 100% of this money was distributed to WonderWork partners and partner hospitals on or before January 17, 2014. All surgeries should be completed by June 2014.

WHAT: This grant will help provide 3 types of miracles surgeries and treatment for three major public health problems in the developing world:

CATARACT BLINDNESS: 20 million children and adults who are blind today could see tomorrow if they received a 15-minute miracle surgery, but most never will because they are too poor to afford it. The eye surgery we provide is an inexpensive, quick, yet very safe procedure that can restore virtually 100% of eyesight in just 15 minutes. Once the bad lens is removed through a small incision in the eye, a new one is inserted. There are no stitches required, just a bandage to cover the eyes overnight. The patient is able to see the next day. A child's surgery costs \$300; an adult's is just \$35.

CLUBFOOT: 2 million children in the world who are suffering with clubfoot could be saved through a miracle cure that costs just \$250. Our partners use a series of casts that gradually straighten feet over a period of 6 weeks. Once the feet are straightened, the child wears braces for a few years to keep them in line. This cure is 95% effective. For children that are too old for casting, we provide traditional surgery.

BURNS: 15 million children worldwide have been severely burned - making burns one of the biggest medical problems in the developing world. Luckily, there is a surgery that can transform severely burned children and adults. It can give them back the use of their fingers, toes, hands, arms and legs, or release a chin that's been fused to a chest. A plastic surgeon uses a scalpel to "release," or separate, skin that has been fused together by a severe burn injury. The transformation is life-changing, takes but a few hours and costs as little as \$300.

PROCESS FOR DETERMINING COMPENSATION

FORM 990, PART VI, LINE 15A & 15B

AN INDEPENDENT COMPENSATION COMMITTEE HAS BEEN ESTABLISHED BY THE BOARD OF DIRECTORS TO SECURE DATA FROM AND ABOUT COMPARABLE NONPROFIT ORGANIZATIONS IN OUR AREA TO BENCHMARK PAY. THE COMMITTEE WAS ESTABLISHED TO FURTHER COLLECT OTHER PUBLISHED SURVEY DATA, WHEN APPROPRIATE, OF FOR-PROFIT ORGANIZATIONS FOR SPECIFIC FUNCTIONAL COMPETENCIES SUCH AS FINANCE AND HUMAN RESOURCES. TOGETHER WITH THIS DATA FROM THE COMPARABLE LOCAL ORGANIZATIONS, DATA FROM THESE MARKET SEGMENTS ARE USED TO FORM A MARKET COMPOSITE TO ASSESS THE COMPETITIVENESS, FAIRNESS AND APPROPRIATENESS OF COMPENSATION PAID BY WONDERWORK TO ITS EXECUTIVES AND OTHER EMPLOYEES

WONDERWORK'S COMPENSATION STRATEGY AND IMPLEMENTATION IS ADMINISTERED BY THIS COMPENSATION COMMITTEE, WHICH WILL REPORT ITS FINDINGS TO THE BOARD OF DIRECTORS. THE BOARD, THROUGH THIS COMMITTEE, IS RESPONSIBLE FOR ESTABLISHING AND MAINTAINING A COMPETITIVE COMPENSATION PROGRAM FOR THE ORGANIZATION AND COORDINATING AN ANNUAL REVIEW BY AN INDEPENDENT REVIEWER (OR AN INTERNAL DETERMINATION) TO EVALUATE THE ORGANIZATION'S EXECUTIVE COMPENSATION AGAINST THE COMPETITIVE MARKET. FOLLOWING THE REVIEW OF THIS EVALUATION, THE BOARD APPROVES, FOR SELECTED KEY EXECUTIVES, BASE SALARIES AND ANNUAL INCENTIVE OPPORTUNITY ADJUSTMENTS (IF ANY), AND OBJECTIVES AND GOALS FOR THE UPCOMING YEAR.

Independent Auditors' Report

The Board of Directors
WonderWork, Inc.:

We have audited the accompanying financial statements of WonderWork, Inc. (WonderWork), which comprise the balance sheets as of June 30, 2014 and 2013, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the organization's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of WonderWork, Inc. as of June 30, 2014 and 2013, and the changes in its net assets and its cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

WONDERWORK, INC.

Notes to Financial Statements

June 30, 2014 and 2013

(1) Description of Organization

WonderWork, Inc. (the Organization or WonderWork) is a not-for-profit organization, which was incorporated in 2011 to provide treatment, surgery, and related assistance to children and adults everywhere, including those in developing countries suffering from disease, illness, or disability, including, but not necessarily limited to, blindness, club foot, hydrocephalus, pediatric cardiac surgery, and burns; and to further support medical institutions and other charitable organizations engaged in the provision of these services; as well as creating general awareness of these disabilities and available treatments. Since the Organization was recently formed, many activities consisted of start-up related costs for the years ended June 30, 2014 and 2013. In 2012, WonderWork changed its name from Surgery for the Poor, Inc. to WonderWork, Inc.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The Organization's financial statements have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles. Net assets and the changes therein are classified and reported as follows:

Unrestricted – Net assets that are not subject to donor-imposed restrictions.

Temporarily Restricted – Net assets subject to donor-imposed restrictions that will be met by actions of the Organization and/or the passage of time.

Revenues are reported as increases in unrestricted net assets unless their use is limited by explicit donor-imposed restrictions or by law. Expenses are reported as decreases in net assets.

(b) Fair Value

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that a reporting entity has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

(c) Accounting Estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingencies at the date of the financial statements and revenues and expenses recognized during the reporting period. Significant estimates made in the preparation of the financial statements include determining the net realizable value of contributions,

valuation of in-kind contributions, and functional expense allocations. Actual results could differ from those estimates.

(d) Cash and Cash Equivalents

The Organization considers all highly liquid instruments with an original maturity of three months or less to be cash equivalents. The Organization maintains cash and cash equivalents in major financial institutions. Cash held by a financial institution that exceeds the Federal Deposit Insurance Corporation (FDIC) limits exposes the Organization to a concentration of credit risk.

(e) Investments

Investments are reported at fair value based upon quoted market prices.

(f) Contributions

Contributions, including unconditional promises to give (pledges), are recognized as revenue upon receipt and are considered to be unrestricted unless received with donor stipulations that limit their use through either purpose or time restrictions. Contributions with donor stipulations that limit their use are considered to be temporarily restricted until the donor restrictions expire, that is, when a time restriction ends or purpose restriction is fulfilled. Upon the expiration of donor stipulations, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the accompanying statements of activities as net assets released from restrictions. Contributions expected to be received after one year are discounted at a risk-adjusted rate of return.

(g) Contributions In-Kind

Contributions in-kind include donated services and materials related to the treatments sponsored by WonderWork. These contributions are recorded at fair value on the date of donation and are recognizable as they either create or enhance assets that are not financial in nature or provided by individuals with specialized skills that would need to be purchased if the services had not been donated.

(h) Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and amortization. Depreciation is computed on the straight-line basis over the estimated useful lives of the assets ranging from 3 to 5 years. Leasehold improvements are amortized on a straight-line basis over the lesser of their useful lives or the term of the lease.

(i) Income Taxes

WonderWork recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Income generated from activities unrelated to the WonderWork's exempt purpose is subject to tax under Internal Revenue Code Section 511. WonderWork utilizes a threshold of more likely than not for recognition and derecognition of tax positions taken or expected to be taken in a tax return. WonderWork did not recognize any unrelated business income tax liability for the years ended June 30, 2014 and 2013.

Time	200,040	199,531
	<u>\$ 6,069,458</u>	<u>2,583,838</u>

(7) Loans Payable

In fiscal 2013, the Organization received an unsecured impact loan commitment of \$7,500,000 from a foundation to be used to generate additional funding for WonderWork programs and facilitate the more effective and efficient delivery of surgeries for the poor and needy served by WonderWork. Funds loaned by the foundation are to be repaid after 5 years at the rate of 2% per annum. As of June 30, 2013, WonderWork had drawn down \$2,500,000 of this loan. In 2014, an additional \$5,000,000 was drawn down under the loan.

In 2014, the Organization received unsecured impact loans commitment of \$2,000,000 to be used to generate additional funding for WonderWork programs. Funds loaned are to be repaid after 5 years at the rate of 2% per annum. In 2014, \$100,000 of these loans were forgiven and recognized as contribution revenue in the accompanying statement of activities.

As of June 30, 2014 and 2013, WonderWork had drawn down a total of \$9,400,000 and \$2,500,000 of these loans, respectively. Interest on the loans is not due until repayment. Accrued interest expense of \$118,750 at June 30, 2014 was recognized on these loans.

During 2013, WonderWork borrowed \$1,159,203 against its investment brokerage account with interest rates ranging from 5.25% to 6%. This loan was fully repaid in October 2013.

WONDERWORK, INC.

Notes to Financial Statements

June 30, 2014 and 2013

The aggregate amount of principal due on loans payable at June 30, 2014 is as follows:

2018	\$ 7,500,000
2019	<u>1,900,000</u>
	<u>\$ 9,400,000</u>

Pursuit to the loan agreements, Wonderwork met its loan covenants as of June 30, 2014, which consisted of maintaining assets in excess of \$1,500,000 and maintaining expenditures of 50% or more of all public donations on program service activities.

(8) Payable to HelpMeSee

In August, 2011, WonderWork entered into a partnership agreement with HelpMeSee, another blindness charity and 501(c)(3), to work together to solve the problem of cataract blindness. This agreement provided that WonderWork would support HelpMeSee with program grants that WonderWork would pay to HelpMeSee, including an annual grant equal to the amount of the largest grant WonderWork made to a blindness partner from unrestricted funds that year, and a \$2,000,000 program grant payable at the end of the 5 year agreement. (If the agreement was terminated before 5 years, this grant would be pro-rated.) This agreement provided that HelpMeSee would help WonderWork through payments of \$166,667 per month to help pay for a portion of the expenses WonderWork incurred as part of this agreement. HelpMeSee terminated this agreement in the 12th month (August 2012) and currently the two organizations are in arbitration. The liability recorded at the termination of the agreement has been reversed as management believes the liability will not be paid.

(9) Allocation of Joint Costs

In 2014 and 2013, Wonderwork conducted activities, principally direct mailings, that included fundraising appeals as well as program components. The joint costs incurred were allocated as follows:

	<u>2014</u>	<u>2013</u>
Program services	\$ 3,717,856	3,538,996
Fund-raising	<u>3,939,353</u>	<u>4,325,440</u>
Total	<u>\$ 7,657,209</u>	<u>7,864,436</u>

(10) Contributions In-Kind

In fiscal year 2014, in-kind contributions consisted of donated professional services, overhead for medical and surgical staff and facilities, medical surgical supplies, medications, and outreach from surgical partners. The amount that hospitals donate toward the overall cost needed to provide the surgeries was \$1,882,441.
